

Don't take away local broadcasting for XM. Is there no such thing as "freedom of speech?" It goes against the constitution to do such an act, and shouldn't be condoned. Local radio has already lost me because of all of the junk that they play, and refuse to go back to it. People, for the most part do not buy satellite radio to listen to local news, but it is definitely a nice perk to having it. NAB is a horrible organization who trys to squash every good idea that somewhat threatens them. Please don't take away local news from the satellite radio industry to make some local yahoos happy.
